Mobile: [+91 7093830560](tel:+917093830560)

SKILLS

Languages:	C++, Python, C
Tools/Platforms:	GitHub, Excel, VS Code, MS SQL Server, Power BI
Web Development:	HTML, CSS, JavaScript, Django, React, Tailwind CSS
Data Science & Machine Learning:	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Soft Skills:	Problem Solving, Communication, Team Collaboration, Time Management

PROJECTS

University Management System <i>Python, Django, HTML, CSS, SQLite</i> [Github]	Feb' 26
- Developed a role-based University Management System using Django and SQLite, enabling management of courses, attendance, CGPA, timetable, and messaging for students and faculty. - Modeled relational database models using Django ORM and customized the authentication system for students and teacher roles. - Delivered an interactive dashboard for academic data visualization improving accessibility of student records.	
Aspiro - AI Driven Student Guide <i>Tailwind CSS, Full-stack Web Development</i> [Github]	Oct' 25
- Built a full-stack web application for placement preparation, interview practice, and skill development. - Implemented secure authentication, progress tracking, and real-time content management. - Integrated an AI chatbot to deliver personalized guidance and improve user engagement.	
AI Real Estate Chatbot – Realty Whisper <i>React, Next.js, Node.js, Tailwind CSS</i> [Github]	Mar' 25
- Created an AI-driven real estate chatbot that delivers instant land price predictions, location insights, and user-friendly guidance for multiple regions. - Designed a responsive user interface using React and Tailwind CSS with authentication and real-time data management. - Strengthened backend services with Node.js to handle location-based queries and conversational responses.	

TRAINING

Lovely Professional University (LPU)	Aug' 25
From Data to Decisions: A Hands-On Approach to Data Science <i>Python, Machine Learning</i> [Github]	
- Designed a rainfall prediction model using Python, applying data cleaning, EDA, and statistical techniques on weather datasets (temperature, humidity, wind speed, precipitation, etc.). - Implemented machine learning algorithms to predict rainfall likelihood and visualized trends using Matplotlib, Seaborn, and Pandas. - Built an interactive dashboard to display predictions, correlations, and seasonal weather patterns for user-friendly insights.	

CERTIFICATES AND CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate [Oracle]	Mar' 26
Privacy and Security in Online Social Media [NPTEL]	Oct' 25
Oracle Data Platform 2025 Foundations Associate [Oracle]	Oct' 25
IELTS Pro [Udemy]	Oct' 24

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.20	Phagwara, Punjab Aug' 23 – Present
Sri Chaitanya College Intermediate Percentage: 86%	Kurmanapalem, Andhra Pradesh Mar' 21 – Apr 2023
Sri Chaitanya Techno School Matriculation Percentage: 100%	Anakapalle, Andhra Pradesh Apr' 20 – Mar 2021
